Game Changer Robotics sets an interdisciplinary approach of teaching and developing - through engineering thinking, math, science and high tech resources - the skills and qualities we want for students:

G | GAME
CHANGER

Our methodology is designed under the adoption of the ISTE (International Society for Technology in Education)

In Game Changer students will become proficient in foundational technology skills, but that's not the end. It's the means to an end where the expectation is that the student will use technology to take charge of their own learning in their own field of passion and interest.
